 PRnewsWire hack – Ukrainian SSU trail! Massive Leak!

Anonymous Com 0909150909

PRNEWSWIRE hack incident and Ukrainian Intelligence involvement in it.

LINK for PREVIEW – <http://posting.org/gallery/hpbdw4rs/>

**Oleg\_Vladimirovich\_Frolov Notes**  
07 September 2015

**Summary**

The First Deputy of Security Service of Ukraine, head of Electronic Surveillance and Tech Ops department – as electronic government official crucial known for his tight connections with Russian OC and terrorist groups engaged in East of Ukraine military conflict, has been active in a number of areas on behalf of FSB cyber command, online sabotage, massive hacker attacks and politics oriented TESTs, including spawning, online account takeovers, identity theft, money laundering, and trafficking in large quantities of stolen master, personal and banking information related to dominant industrial moguls of Ukraine. In order federal indictment for conspiracy, aiding and abetting in recent PRNEWSWIRE and BUSINESSWIRE hacking attack and stock fraud.

Several independent indicators strongly suggest that Frolov has for the past several years been operating a vast electronic surveillance network providing multiple business entities with access to monitoring logs and cellular intercepts in exchange for monetary and political gain.

At several locations on the Russian-speaking Internet during the course of 2015, a person using contact information associated with Frolov (operator: +380 67 321 1935 mobile number) transmitted several files over Gmail, Mail.ru mobile applications, including Viber messages to a phone number +380 67 387 7777. Linked to Alexander Turchinov (data sent contained images of partially displayed log file that contained personal communications of Zoryan Sikaryak and Olena Yikhan chatting about their sexual relationship) in several instances, the person making these transfers provided the personal name of Oleg Frolov. Other online information from 2014 indicates that the full name may be Oleg Vladimirovich Frolov.

Figure: Viber attached picture of telephone intercept sample, transmitted by Frolov to Turchinov.

In at least three of the online email transcripts associated with Oleg Frolov, the telephone number +380673211935 was provided for contact purposes.

In June-August 2015, Frolov participated in a few brief package exchanges with two known figures in the Russian intelligence community: Nikolay Gridnev (OC department of Russian MVD), Sergey Koryakov (FSB) +7 910 433 3107. Some of the forwarded messages was recovered from a mobile terminal seized upon the arrest of Vitaly Kozlovskiy. This message originated from the following telephone number +380 66 007 2630 (identified as Frolov's telephone number) and contained crucial data linked to BusinessWIRE, username and screenshots of multiple files on behalf of FSB cases related to Ukrainian politicians including David Zhornitsa, Peno Pivovarskyo, Roman Zvyaych etc.

Good day all!

Today we release a preview of vast economic and political espionage that is ongoing at the time as we type in this manifesto “release post mortem”. We all heard about recent feds bust of Ukrainian nationals charged with hacking into PRNEWswire and BUSINESSWIRE, so we perfectly understand what is happening at the moment we decided to make a leak prev of how Ukrainian Government Security officials do hire hackers and use gov service resources to spy on people and companies. We are talking about General Oleg Frolov of Ukraine SBU, who hired us long time ago to hack into accounts of such famous people as: Petro Poroshenko, Oleg Lyashko, Oleg Tyagnybok, David Zhvania, Boryslav Bereza, Yuri Kosyuk and many others. The scheme Frolov implemented was to get genuine information about the lives of the mentioned people and TOSS IN bullcrap and FORGED materials to be published online using resources controlled by FSB like UkroLeaks and others. Being an active FSB officer Frolov is being engaged in a major spy technology trade scheme in which he delivered source codes and cryptography keys property of UNIS corp (Ukraine based IT company, a government contractor controlled by Zvarych family). UNIS based systems to control mobile terminals and Bluetooth crypto gear (AMON system) are being used by most of the Ukraine gov officials – and Frolov controls it. Information that is being gathered by Frolov is being constantly transmitted to high-ranked FSB officials like: Oleg Tankov, Sergey Ignatchenko and Sergey Koryakov including Chechen Kadyrov mafia bosses. Frolov also instigated technical surveillance on minister Arsen Avakov, Prosecutor’s office officials and Ihor Yermeev’s “Continium” business group. Frolov’s people on daily basis wiretap Ukrainian journalists as:

Vitaly Portnikov, Sergey Ivanov, Alena Yahno, Vyacheslav Butusov etc.

As of Frolov cooperation with the People Donetsk Republic we provide samples of what kind of information is being passed over to Purgin, Pushylin and others related to AZOV SICH regiment.

Today’s preview is only a prequel, to show Frolov that he still has to pay us 10000 USD for the latest leaks of two famous Ukraine politicians that he used to toss Fake information in and spoil our work.

that can NOT be changed!

WE have included information from personal notebook that belongs to Frolov and that we have successfully backdoored. Inside you will find samples of all the things mentioned in this manifest including information related to President of Ukraine – P.Poroshenko that is being passed on by Frolov to FSB.

IF anybody’s interested in purchasing this information in Full – 45 GB of data – most of that bulk contains Intercept logs of cellular transmissions between Ukrainian politicians and businessmen and 5Gb of raw PRNEWSWIRE dump – we are open for discussion or if any of the free media want to publish all of it we’ll give it away for free.

We are Anonymous We are Strong!

I’m a dark Messiah!
